Interactive comment on “Evaluated kinetic and photochemical data for atmospheric chemistry: Volume V – heterogeneous reactions on solid substrates” by J. N. Crowley et al.

J. N. Crowley et al.

john.crowley@mpic.de

Received and published: 26 March 2010

We thank Stephane Le Calve for this comment.

Acetaldehyde + ice: The Petitjean et al data are now incorporated and provide the basis of a new recommendation.

Acetone + ice: The Journet publication was already cited. We now mention the reported effect on uptake of making the ice film by vapour deposition or by freezing a liquid water sample.

The revised datasheets for acetaldehyde and acetone (in the IUPAC web-site format)
